EXPERIENCE

Full Stack Developer

iMaker Technology Private Limited

📅 Aug 2023 – Present   📍 Gandhinagar, India

- Developed cross-platform web and mobile applications using **React.js**, **React Native**, and **JavaScript**, ensuring seamless functionality and user satisfaction.
- Led the development of a comprehensive **MERN Stack RTO Application System**, optimizing application processes with distinct module layouts for improved efficiency.
- Implemented **efficient server configurations** for managing large file transfers, ensuring exceptional performance and reliability.

SDE Intern

Vedsphere Consultancy Private Limited

📅 Feb 2023 – Aug 2023   📍 Jaipur, India

- Worked on Salesforce technologies like **Apex, Triggers, Lighting web components**, and **CPQ**.
- Integrated **JavaScript, HTML, and CSS** seamlessly to create cohesive **LWC web components** for the user interface.
- Utilized JavaScript for interactive features like dynamic content loading and increased performance by **34%**
- Led a team of six as the **team lead** in developing a comprehensive **MERN Stack** order management application.

Web Developer

W3era Private Limited

📅 Jun 2022 – Jan 2023   📍 Jaipur, India

- Developed websites and web applications based on client requirements and specifications.
- Wrote **clean**, **efficient**, and **maintainable** code using programming languages such as **HTML**, **CSS**, **JavaScript**, and other web technologies.
- Collaborated with designers, project managers, and other stakeholders to understand project goals and translate them into technical requirements.
- Conducted thorough **testing** and **debugging** to identify and fix issues.

TECHNICAL SKILLS

- Programming Languages: **Java, Javascript, CSS, HTML**.
- Frameworks: **React.js, React-Native, REST-APIs, Expressjs, Bootstrap, SCSS, .**
- Databases: **SQL, DBMS, MongoDB, PostgreSQL**.
- Other Skills: **Data Structures, Algorithms, Problem Solving, Wordpress**.
- Tools: **Git, Github, Netlify, VScode, Material UI**.

EDUCATION

B.Tech. (EIC) - 7.32 CGPA

Government Engineering College

📅 2019 – 2023   📍 Ajmer, Rajasthan

Higher Secondary - 67.00%

Jawahar Sr. Sec. School

📅 2018   📍 Ajmer, Rajasthan

PROJECTS

LMS-Website

- Developed an **LMS** using **WordPress**, **HTML**, **CSS**, and **PHP**, enabling user authentication through **login** and **signup** features.
- Implemented a subscription-based model allowing users to **choose and purchase plans** for learning resources. Site

Mobile App

- Developed multiple web and mobile applications using **React.js**, **React Native**, and **JavaScript**, ensuring cross-platform functionality.
- Designed and implemented multiple **APIs** to facilitate seamless data transfer between **MongoDB** and mobile platforms.
- Configured server settings for **large file handling** within the application environment, ensuring robust performance.
- Utilized **AsyncStorage**, **Redux**, and **Cookies** for efficient data storage and management in local environments. Github

Get-Images Website

- Developed a website using **Bootstrap**, **HTML**, and **JavaScript**, leveraging **REST API** integration for image search functionality.
- Enabled users to perform **image searches** by reference name and displayed results on the webpage, offering **image rendering** and **download options**. Github

ACHIEVEMENTS

- **International Cybersecurity Institute (ICSI)** - Program a prestigious achievement unlocking exclusive opportunities for my tech career. It was a virtual internship program.
- Designed and developed **10+ web projects** covering both frontend and backend technologies, showcasing versatility and expertise.
